

NEW EQUIPMENT

PNEUMATIC IMPACT WRENCH

IMPROVED HEAVY DUTY ATP 7560 Pneumatic Impact Wrench comes in four different anvil configurations: 3/4 in. with socket ring retainer, 3/4 in. with through socket retainer, extra duty 1 in. square drive with through hole, and #4 spline anvil with the button retainer for tough jobs.

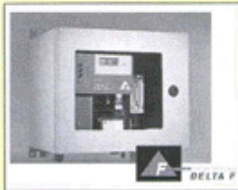

The torque output rating of 1,025 ft lbs on both the #4 spline and 1 in. square drive models is 5% higher than the standard 3/4 in. versions. The grip handle has also been improved to provide for better overall tool comfort and handling by the operator.

ATP Div., Hy-Tech Machine Inc., 25 Leonberg Rd., Cranberry Township, PA 16066.

NEMA 4X OXYGEN ANALYZERS

THIS COMPANY has added the new, low cost DF140 NEMA 4X Oxygen Analyzer to its DF product line.

The DF140 analyzers incorporate a non-depleting sensor offered by this firm. They do not require frequent recalibrations and never have to be rebuilt or replaced. They arrive fully calibrated to NIST standards and are ready to use out of the carton. All the company's sensors carry a 5-year conditional warranty.

The DF140 has optional NEMA 4X and NEMA 7 remote sensor enclosures for installation in Class 1, Division 1 and 2 areas. These can be installed at the sensor tap without the worry of frequent maintenance, it's reported.

Delta F Corp., 4 Constitution Way, Woburn, MA 01801.

MOTOR CONTROL PACKAGE

AUMATIC IS THIS NEW motor control package that enhances operation of electric valve actuators.

Designed for use with this firm's multi-turn and quarter-turn electric motor valve actuators, AUMATIC provides plant owners and operators with enhanced control interface capabilities and flexibility, especially for operations employing large flows of air, water, or steam utilized in industries such as water and wastewater, chemical processing, refinery, pipeline, and electric power generation. It can serve in multi-turn valve applications with up to 11,800 lb torque and in quarter-turn valve applications of up to 236,800 ft lbs.

AUMA Actuators Inc., 4 Zesta Dr., Pittsburgh, PA 15205.

CIRCULAR CONNECTORS INCREASE USER SAFETY, PROTECT EQUIPMENT

NEW PRE-EARTH/First Mate Last Break (FMLB) DL Series connectors provide a path for any stray voltage to be shunted to a safe ground,

avoiding harm to the operator and voltage-sensitive equipment. The FMLB connectors are especially useful for applications where a protective circuit from the shell to a safe ground is a safety requirement, such as factory automation/process control and machine tool.

The Amphenol DL Series connectors are designed with a pre-earth contact, grounded to the shell, that mates first and provides protection from voltage outputs. During the mating cycle of the plug and receptacle, the longer socket contact in the plug makes electrical engagement before the rest of the contacts mate, circumventing harm to electronic circuits or users.

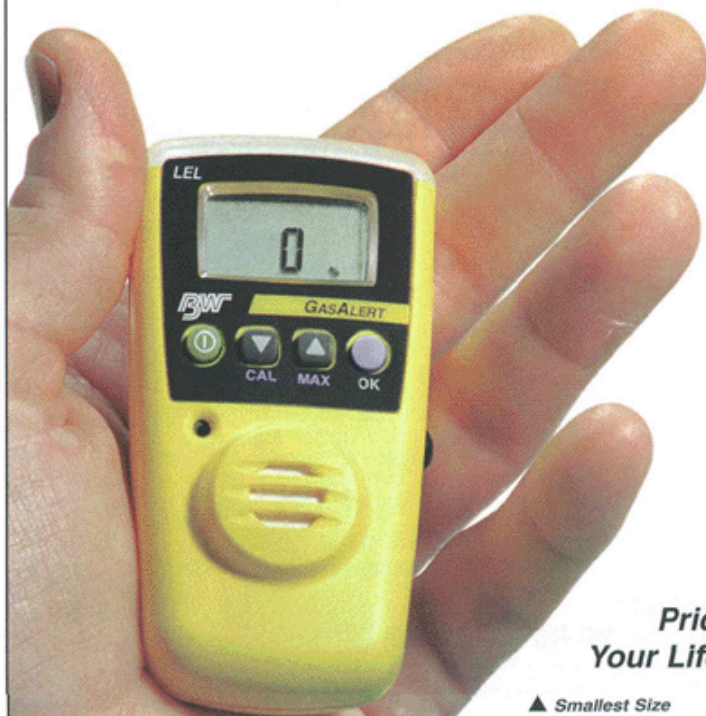

The connectors are intermateable with MIL-C-5015 and Amphenol 97 Series styles, and meet class IP67 protection against water and dust in the mated condition.

Amphenol Corp., 40 - 60 Delaware Ave., Sidney, NY 13838-1395.

Believe it . . . The Smallest & Lightest GASALERT LEL

Combustible Gas Detector 0 - 100% LEL

Price - Size ...
Your Life is Worth It!!

- ▲ **Smallest Size**
(1.5 x 2.0 x 3.75 in / 38.5 x 50 x 95 mm)
and lightweight (406 oz. / 131g)
- ▲ **The best price \$450**
- ▲ **Rechargeable Lithium ION battery,**
Full Shift (14 hrs.) on a single charge
- ▲ **Simplicity of Use**
- ▲ **Records and Displays Peak Exposures**

Take advantage of the BW ...
Trade-Up Program

Get 10% off the retail price by simply taking part in the BW Trade Up program. Trade in your combustible gas detector for a GasAlert LEL. Call BW or your local BW Distributor for details.
